DETAILED ACTION

1. The Amendment filed by Applicant on 07/29/2009 has been entered.

2. Claim 6, 8 and 16-19 have been canceled.

Response to Amendment/Arguments

3. Applicant's amendment and arguments filed on 07/29/2009 have been fully considered and they are found unpersuasive.

4. The rejection of claim 1 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3, 5, 10, 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakata, WO 00/50473 (hereinafter "Nakata"). Nakata teaches an aqueous dispersion comprising an ethylene-(meth)acrylic and a hydrophobic low molecular weight substance (additives including dyes). See Nakata, page 4. The Applicant asserts the ethylene-(meth)acrylic described in Nakata are not waxes as evidenced by the MFR. The current claims do not allude to MFR. A melt flow rate is an indirect measure of molecular weight, high melt flow weight corresponds to low molecular weight. According to a plastic engineering index, $MFR = M_w^{3.4}$. See <http://www.eng-tips.com/faqs.cfm?fid=969>.

7. Claims 4, 7, 9, 11-12 and 20-24 are objected to for depending upon a rejected base claim.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 1796

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
